Presented by
Dr Andrea Pellegram, MRTPI of Andrea Pellegram Ltd

Neighbourhood Planning

Following successful training events in “Planning from a Local Perspective” and “Negotiate a better outcome in planning”, we are pleased to offer a new session entitled “Neighbourhood Planning”.

This course has been designed following questions raised in the other training sessions and is meant to provide focused advice on how to produce a neighbourhood plan that is fit for purpose but done in a way that makes the most of scarce local council and community resources. The approach, based on the experience of Andrea Pellegram and the neighbourhood plans she is preparing, seeks to provide practical advice on how to compose effective policies that will have an influence on planning decisions.

A Light Lunch will will be provided.

Cost: member delegate - £70 non-member delegate: £130
